KEY INFORMATION

Refer to Note 16 for an explanation of the reasons for the variance.

BASIS OF PREPARATION

BASIS OF PREPARATION

The financial report has been prepared in accordance with Australian Accounting Standards (as they apply to local governments and not-for-profit entities) and interpretations of the Australian Accounting Standards Board, and the *Local Government Act 1995* and accompanying regulations.

The *Local Government Act 1995* and accompanying Regulations take precedence over Australian Accounting Standards where they are inconsistent.

The Local Government (Financial Management) Regulations 1996 specify that vested land is a right-of-use asset to be measured at cost. All right-of-use assets (other than vested improvements) under zero cost concessionary leases are measured at zero cost rather than at fair value. The exception is vested improvements on concessionary land leases such as roads, buildings or other infrastructure which continue to be reported at fair value, as opposed to the vested land which is measured at zero cost. The measurement of vested improvements at fair value is a departure from AASB 16 which would have required the Shire to measure any vested improvements at zero cost.

Accounting policies which have been adopted in the preparation of this financial report have been consistently applied unless stated otherwise. Except for cash flow and rate setting information, the financial report has been prepared on the accrual basis and is based on historical costs, modified, where applicable, by the measurement at fair value of selected non-current assets, financial assets and liabilities.

THE LOCAL GOVERNMENT REPORTING ENTITY

All funds through which the Shire controls resources to carry on its functions have been included in the financial statements forming part of this financial report.

In the process of reporting on the local government as a single unit, all transactions and balances between those funds (for example, loans and transfers between funds) have been eliminated.

All monies held in the Trust Fund are excluded from the financial statements. A separate statement of those monies appears at Note 14 to these financial statements.

SIGNIFICANT ACCOUNTING POLICES

CRITICAL ACCOUNTING ESTIMATES

The preparation of a financial report in conformity with Australian Accounting Standards requires management to make judgements, estimates and assumptions that effect the application of policies and reported amounts of assets and liabilities, income and expenses.

The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances; the results of which form the basis of making the judgements about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

GOODS AND SERVICES TAX

Revenues, expenses and assets are recognised net of the amount of GST, except where the amount of GST incurred is not recoverable from the Australian Taxation Office (ATO). Receivables and payables are stated inclusive of GST receivable or payable. The net amount of GST recoverable from, or payable to, the ATO is included with receivables or payables in the statement of financial position. Cash flows are presented on a gross basis. The GST components of cash flows arising from investing or financing activities which are recoverable from, or payable to, the ATO are presented as operating cash flows.

ROUNDING OFF FIGURES

All figures shown in this statement are rounded to the nearest dollar.

- the contractual terms give rise to cash flows that are solely payments of principal and interest.

KEY INFORMATION

Prepaid rates are, until the taxable event for the rates has occurred, refundable at the request of the ratepayer. Rates received in advance give rise to a financial liability. On 1 July 2020 the prepaid rates were recognised as a financial asset and a related amount was recognised as a financial liability and no income was recognised. When the taxable event occurs the financial liability is extinguished and income recognised for the prepaid rates that have not been refunded.

SIGNIFICANT ACCOUNTING POLICIES

All assets are initially recognised at cost. Cost is determined as the	
fair value of the assets given as consideration plus costs incidental to	
the acquisition. For assets acquired at no cost or for nominal	\$7,000,000
consideration, cost is determined as fair value at the date of	\$6,000,000 -
acquisition. The cost of non-current assets constructed by the local	\$5,000,000 -
government includes the cost of all materials used in the construction,	\$5,000,000
direct labour on the project and an appropriate proportion of variable	\$4,000,000 -
and fixed overhead. Certain asset classes may be revalued on a regular	\$3,000,000 -
basis such that the carrying values are not materially different from	\$2,000,000 -
fair value. Assets carried at fair value are to be revalued with	\$2,000,000
sufficient regularity to ensure the carrying amount does not differ	\$1,000,000 -
materially from that determined using fair value at reporting date.	\$0 J

KEY INFORMATION

All loans and borrowings are initially recognised at the fair value of the consideration received less directly attributable transaction costs. After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the effective interest method. Fees paid on the establishment of loan facilities that are yield related are included as part of the carrying amount of the loans and borrowings.

KEY INFORMATION

At inception of a contract, the Shire assesses if the contract contains or is a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. At the commencement date, a right of use asset is recognised at cost and lease liability at the present value of the lease payments that are not paid at that date. The lease payments are discounted using that date. The lease payments are discounted using the interest rate implicit in the lease, if that rate can be readily determined. If that rate cannot be readily determined, the Shire uses its incremental borrowing rate.

All contracts classified as short-term leases (i.e. a lease with a remaining term of 12 months or less) and leases of low value assets are recognised as an operating expense on a straight-line basis over the term of the lease.

KEY INFORMATION

Provisions

Provisions are recognised when the Shire has a present legal or constructive obligation, as a result of past events, for which it is probable that an outflow of economic benefits will result and that outflow can be reliably measured.

Provisions are measured using the best estimate of the amounts required to settle the obligation at the end of the reporting period.

Employee benefits

Short-term employee benefits

Provision is made for the Shire's obligations for short-term employee benefits. Short-term employee benefits are benefits (other than termination benefits) that are expected to be settled wholly before 12 months after the end of the annual reporting period in which the employees render the related service, including wages, salaries and sick leave. Short-term employee benefits are measured at the (undiscounted) amounts expected to be paid when the obligation is settled.

The Shire's obligations for short-term employee benefits such as wages, salaries and sick leave are recognised as a part of current trade and other payables in the calculation of net current assets.

Other long-term employee benefits

The Shire's obligations for employees' annual leave and long service leave entitlements are recognised as provisions in the statement of financial position.

Long-term employee benefits are measured at the present value of the expected future payments to be made to employees. Expected future payments incorporate anticipated future wage and salary levels, durations of service and employee departures and are discounted at rates determined by reference to market yields at the end of the reporting period on government bonds that have maturity dates that approximate the terms of the obligations. Any remeasurements for changes in assumptions of obligations for other long-term employee benefits are recognised in profit or loss in the periods in which the changes occur. The Shire's obligations for long-term employee benefits are presented as non-current provisions in its statement of financial position, except where the Shire does not have an unconditional right to defer settlement for at least 12 months after the end of the reporting period, in which case the obligations are presented as current provisions.

Contract liabilities

An entity's obligation to transfer goods or services to a customer for which the entity has received consideration (or the amount is due) from the customer. Grants to acquire or construct recognisable non-financial assets to identified specifications be constructed to be controlled by the Shire are recognised as a liability until such time as the Shire satisfies its obligations under the agreement.

MATTER FOR CONSIDERATION BY THE COUNCIL

To propose a new Cemeteries Local Law that reflects the current provisions of the Cemeteries Act 1986.

ATTACHMENTS

OMC190522.11.1.4.A Draft Shire of Laverton Cemeteries Local Law

BACKGROUND

At its Ordinary Meeting held on 22 July 2021 Council resolved to initiate changes to a number of the Shire's local laws, including Cemeteries.

The Shire of Laverton Cemetery By-laws which were published in the Government Gazette on 26 July 1974 are now redundant. Local laws about cemeteries are now made under the provisions of the Cemeteries Act 1986; the extent of changes required to the 1974 by-law are such that it is quicker and cheaper to make a new one.

As such a draft *Shire of Laverton Cemeteries Local Law* was adopted by Council at its meeting held on 25 November 2021.

STATUTORY IMPLICATIONS

Local Government Act 1995

- Section 2.7(2) Provides that Council is to oversee the allocation of local government finances and resources and to determine the local government policies.
- Section 3.1 Provides that the general function of the local government is to provide for the good government of persons in its district.

Section 3.11-3.17 - Provides for the making of Local Laws

Cemeteries Act 1986

Part VIII – Provides for Local Government to make local laws about cemeteries.

STRATEGIC PLAN IMPLICATIONS

The proposed introduction of a new Cemeteries Local Law to reflect the current provisions of the *Cemeteries Act 1986* meets Outcome 4.2 of the Shire of Laverton Plan for the Future: Strategic Community and Corporate Business Plan 2020-2030.

Outcome 4.2 An efficient and effective organisation

Strategy 4.2.2 Comply with statutory and legislative requirements.

POLICY IMPLICATIONS

Council has no policies in respect to this matter.

FINANCIAL IMPLICATIONS

There are costs associated with the development, advertisement for comment and Gazettal of the proposed local law.

RISK MANAGEMENT

The risk is considered low, and it certainly meets the requirements of the community Strategic Plan.

CONSULTATION

As required by s3.12(3) of the *Local Government Act 1995*, the draft local law was advertised for public comment. There were no comments from the public. On behalf of the Minister for Local Government the Department of Local Government made some minor suggestions in relation to the content and format of the draft local law.

The suggested amendments are shown 'marked' on the copy of the local law attached to the agenda and are considered minor

COMMENT

Subject to the minor amendments shown 'marked' on the attached copy of the proposed Shire of Laverton Cemeteries Local Law, the local law may now be made under s3.12(4) of the *Local Government Act 1995.*

It will come into effect 14 days after publication in the *Government Gazette*. Once Gazetted, the Shire is also required to submit the local law for scrutiny to the WA Parliamentary Joint Standing Committee on Delegated Legislation, which oversees the making of subsidiary regulation like local laws on behalf of Parliament.

VOTING REQUIREMENTS

Absolute majority decision of Council required.

BACKGROUND

At its Ordinary Meeting held on 22 July 2021 council resolved to initiate changes to a number of the Shire's local laws, including Dogs.

In summary, it is only necessary to make a local law that deals with confinement, the requirement to pick up dog excreta, and kennels.

As such a draft Shire of Laverton Dogs Local Law 2022 was adopted by Council at its meeting held on 25 November 2021.

CONSULTATION

Section 51 of the *Dog Act 1976* provides that a local government may make local laws about dogs using the process set out in section 3.12 of the *Local Government Act 1995*.

As required by s3.12(3) of the *Local Government Act 1995*, the draft local law was advertised for public comment. There were no comments from the public. On behalf of the Minister for Local Government the Department of Local Government made some minor suggestions in relation to the content and format of the draft local law.

The suggested amendments are shown 'marked' on the copy of the local law attached to the agenda and are considered minor.

COMMENT

Subject to the minor amendments shown 'marked' on the attached copy of the proposed Shire of Laverton Dogs Local Law, the local law may now be made under s3.12(4) of the *Local Government Act 1995*.

It will come into effect 14 days after publication in the *Government Gazette*. Once Gazetted, the Shire is also required to submit the local law for scrutiny to the WA Parliamentary Joint Standing Committee on Delegated Legislation, which oversees the making of subsidiary regulation like local laws on behalf of Parliament.

OMC190522.11.1.6.A Draft Shire of Laverton Cat Local Law

BACKGROUND

At its Ordinary Meeting held on 22 July 2021 council resolved to initiate changes to a number of the Shire's local laws, including making a new Cats local law to reflect the introduction of the *Cat Act 2011, the Cats Regulations 2012* and *the Cat (Uniform Local Provisions) Regulations 2013*.

The Cat Act and its associated regulations deal with most matters relating to cats including:

- Microchipping;
- Registration and registration periods;
- Applications for approval to breed cats;
- Registration fees; and
- Application fees to obtain a permit to breed cats.

Local laws that deal with cats must comply with the Cat Act and associated Regulations. There is not a great deal left that can be dealt with by local laws, which are set out in section 79 of the Cat Act:

Clause 5.2.4 of the *Shire of Laverton Health Local Law 1999* deals with the maximum number of Cats that may be kept on premises within the district.

A draft Shire of Laverton Cats Local Law was adopted by council at its meeting held on 25 November 2021. Its major provision is to set the 'standard number' of cats that may be kept at 2 (as is the case under the 1999 local law). Note that this limit does not apply to a veterinary clinic, a cat management facility operated by the Shire, or to a cat management facility operated by a body prescribed as a cat management facility operator under the *Cat Regulations 2012*.

As required by s3.12(3) of the *Local Government Act 1995*, the draft local law was advertised for public comment. There were no comments from the public. On behalf of the Minister for Local Government the Department of Local Government made some minor suggestions in relation to the content and format of the draft local law. The suggested amendments are shown 'marked' on the attached copy of the local law attached to the agenda and are considered minor.

STATUTORY IMPLICATIONS

Local Government Act 1995

- Section 2.7(2) Provides that Council is to oversee the allocation of local government finances and resources and to determine the local government policies.
- Section 3.1 Provides that the general function of the local government is to provide for the good government of persons in its district.
- Section 3.12 Provides for and sets out the procedures required for the making of Local Laws.

STRATEGIC PLAN IMPLICATIONS

The proposed introduction of a Cats Local Law meets Outcome 4.2 of the Shire pf Laverton Plan for the Future: Strategic Community and Corporate Business Plan 2020-2030.

Outcome 4.2 An efficient and effective organisation

Strategy 4.2.2 Comply with statutory and legislative requirements

POLICY IMPLICATIONS

Council has no policies in respect to this matter.

FINANCIAL IMPLICATIONS

There are costs associated with the development, advertisement for comment and eventual Gazettal of the proposed local law.

RISK MANAGEMENT

The risk is considered low, and it certainly meets the requirements of the community Strategic Plan.

CONSULTATION

As required by s3.12(3) of the *Local Government Act 1995*, the draft local law was advertised for public comment. There were no comments from the public, but the Department of Local Government made some minor suggestions in relation to the content and format of the draft local law. The suggested amendments are shown 'marked' on the copy of the local law attached to the agenda and are considered minor.

COMMENT

Subject to the minor amendments shown 'marked' on the attached copy of the proposed Shire of Laverton Cats Local Law, the local law may now be made under s3.12(4) of the *Local Government Act 1995*.

It will come into effect 14 days after publication in the *Government Gazette*. Once Gazetted, the Shire is also required to submit the local law for scrutiny to the WA Parliamentary Joint Standing Committee on Delegated Legislation, which oversees the making of subsidiary regulation like local laws on behalf of Parliament.

To amend the *Shire of Laverton Fencing Local Law 2013* to allow increased fencing heights in front setbacks in areas zoned residential.

OMC190522.11.1.7.A

Draft Shire of Laverton Fencing Amendment Local Law

BACKGROUND

Dividing fences are dealt with by the *Dividing Fences Act 1961*. The Act provides for most issues relating to fencing between properties to be decided by agreement between owners. Amongst other things the Act provides that a local government may prescribe by a local law what constitutes a 'sufficient fence' in relation to a dividing fence or a boundary fence.

Councillors have previously discussed potential amendments to the Shire's Fencing Local Law to allow increased fencing heights in front setbacks in areas zoned residential in order to assist with reducing crime.

At its Ordinary Meeting held on 25 November 2021 Council resolved to adopt a Fencing Amendment Local Law to replace clause 3.1 with:

3.1 Fences Within Front Setback Areas

- (1) A person shall not, without written consent of the Building Surveyor, erect a free standing fence greater than 1200mm in height, within the front setback area of a Residential Lot.
- (2) The Building Surveyor may approve the erection of a fence not exceeding 1800mm in the front setback area of a Residential Lot providing:
 - (a) the proposed fence is built of brick, cement or masonry up to 1200mm in height; and
 - (b) topped with a visually permeable barrier to a maximum height of 1800mm; and

- (c) visual permeability is achieved by the use of pickets (either steel or timber) not more than 30mm wide at a spacing of not less than 50mm; and
- (d) the applicant obtains neighbour's comments for the portion located along the common boundary, forward of the building setback.

The amended clause will allow residents to install front fencing of a nature that provides additional security at the same time as improving as well as preserving or even improving visual amenity; a solid line of 1800mm high fencing made of colourbond or fibre cement sheets along multiple properties in a street will present poorly and reduces the opportunity for casual surveillance of properties by neighbours or from the street.

STATUTORY IMPLICATIONS

Local Government Act 1995

Section 2.7(2) – Provides that Council is to oversee the allocation of local government finances and resources and to determine the local government policies.

- Section 3.1 Provides that the general function of the local government is to provide for the good government of persons in its district.
- Section 3.12 Provides for and sets out the procedures required for the making of Local Laws.

Dividing Fences Act 1961

Clause 5 (sufficient fence) -

"...a sufficient fence, in relation to a dividing fence or a boundary fence referred to in section 16, means —

(a) any fence prescribed by a local law as a sufficient fence for the part of the local government district in which the dividing fence or boundary fence is, or is to be, erected...."

Note: Local laws about fencing are generally made using the process set out in section 3.12 of the *Local Government Act 1995,* although some local governments have done so by way of a policy made under their Local Planning Scheme.

STRATEGIC PLAN IMPLICATIONS

The proposed Fencing Amendment Local Law meets Outcomes 1.1 and 4.2 of the Shire pf Laverton Plan for the Future: Strategic Community and Corporate Business Plan 2020-2030.

FINANCIAL IMPLICATIONS

There are costs associated with the development, advertisement for comment and eventual Gazettal of the proposed local law.

The GVROC, in early 2021, made application under the WA Local Government Association Regional Climate Alliance Coordinator Grant program to engage a regional alliance coordinator to work with GVROC and the member councils on identified priority projects throughout the region.

GVROC was officially notified in July 2021 that the grant application was successful.

The grant is for total allocation of \$110,000 (ex GST) over two-year period, ending 30 June 2023, to employ a Regional Climate Change Coordinator to coordinate capacity building activities and implement climate adaptation and mitigation projects as part of the program.

At the GVROC Meeting held in Esperance on 4 February 2022, GVROC endorsed the appointment of Ms Niki Curtis to the Coordinator position and agreed to the establishment of the GVROC Climate Change Alliance Working Group with membership as follows:

CONSULTATION

GVROC Regional Climate Alliance Working Group

COMMENT

Subsequent to the Background information provided, the Regional Climate Alliance Working Group (RCAWG) have now met on four occasions.

The initial purpose of the meetings has been to define the Terms of Reference for the Group and to identify priority projects to work towards.

The Terms of Reference (copy attached) were endorsed by the GVROC at its recent meeting held on 1 April 2022.

The priority projects identified by the working group, and which apply to the whole of the GVROC region, include a Carbon Emissions Baseline Study, Renewable Energy Audit, Regional Water Security Plan and a regional waste audit action plan.

These projects are a priority first step for the GVROC RCA in the Goldfields Esperance region's preparation for and mitigation against the impacts of climate change.

To progress these projects the GVROC RCA Working Group is requesting additional contributions from each of the nine GVROC member LGAs totalling a budgeted \$124,000 (see attached project budget schedule), which will leverage further investment from external partners for at least four projects over the next 18 months. These additional contributions will be on a sliding scale, with the larger populated LGA's of Esperance and Kalgoorlie-Boulder, being asked to pay slightly more than the smaller Shires of Coolgardie, Dundas, Laverton, Leonora, Menzies, Ngaanyatjarraku, and Wiluna.

The issue of global warming and the need for climate change is a significant issue be faced around the world and this is an opportunity for the GVROC councils to participate and implement actions to assist with the process.

It is recommended that Council give due consideration to make provision on the 2022/2023 budget as per the GVROC RCAWG request.

VOTING REQUIREMENTS

Simple majority decision of Council required.

COUNCIL DECISION/PROCEDURAL MOTION

5/5/2022

Dear Peter

Re: GVROC Regional Climate Alliance Projects 2022/23 – Additional LGA financial contributions

The GVROC Regional Climate Alliance (RCA) Working Group has strategically developed a short list of projects that will be undertaken in the next 18 months. These projects are a priority first step for the GVROC RCA in the Goldfields Esperance region's preparation for and mitigation against the impacts of climate change.

To progress these projects the GVROC RCA Working Group is requesting additional contributions from each of the nine GVROC member LGAs totalling a budgeted \$124,000 (see attached project budget schedule), which will leverage further investment from external partners for at least four projects over the next 18 months. These additional contributions will be on a sliding scale, with the larger populated LGA's of Esperance and Kalgoorlie-Boulder, being asked to pay slightly more than the smaller Shires of Ngaanyatjarraku, Wiluna, Menzies, Laverton, Leonora, Coolgardie and Dundas.

This request is also in line with the GVROC resolution from its meeting held on 1 April 2022 at which each member LGAs' delegates supported it as part of point 6 of the following recommendation:

RECOMMENDATION:

That the GVROC Council:

- 1. Note and accept the GVROC RCA Working Group Terms of Reference document as attached (Attachment 10).
- Note and accept the GVROC RCA Business Plan for 2022 as a working document (Attachment 12).
- 3. Endorse the development of a website that can host climate tools and resources, as outlined in the GVROC RCA Business Plan and provide feedback on the draft website developed to the GVROC RCA Coordinator by 8 April 2022 so it can be updated to take live from that date.
- 4. Endorse the list of projects to work on as agreed by the RCA Working Group and listed in the table of this item, and agree that the order of importance and timelines of projects will change as more information comes to hand on what funding opportunities, partnerships and programs are available.
- 5. Endorse the GVROC RCA Vision and Mission statements, as agreed by the RCA Working Group.
- 6. Support the GVROC RCA Working Group recommendation for additional financial contributions from each GVROC LGA be made towards the RCA program for 2022-23 to support projects as needed as part of the annual GVROC Budget process.

RESOLUTION: Moved: Cr Tracey Rathbone, Shire of Coolgardie Seconded: Cr Ron Chambers, Shire of Esperance If you are amenable to this request, I ask that the Shire of Dundas approve an allocation in its 2022/23 budget for \$13,500 to co-invest in the targeted projects when they commence and are called upon by the GVROC RCA.

The targeted projects for this investment include a Carbon Emissions Baseline Study, Renewable Energy Audit, Regional Water Security Plan and a regional waste audit action plan. Other financial partners in these projects will involve Regional Development Australia Goldfields Esperance, the Goldfields Esperance Development Commission and Department of Water and Environmental Regulation.

The GVROC RCA look forward to working with your Shire on these projects and thankyou for your ongoing support in the GVROC RCA Program.

Kind regards Andrew Mann

4. GVROC RCA WORKING GROUP BUSINESS

4.1 <u>GVROC RCA Future Project – Strategic Water Plan</u>

Reporting Officer: Niki Curtis, GVROC Regional Climate Alliance Coordinator

Date: April 2022

Attachments:

- Goldfields Esperance Strategic Water Plan (Attachment 3)
- 2022 Projects Budget (Attachment 4)

Background:

Preliminary climate change adaptation planning by the GVROC Regional Climate Alliance Working Group has highlighted the strong need for longer-term regional water security.

A regional water planning initiative will provide an opportunity to rethink and be creative for a future where resilient communities, governments and industry will need to have greater dialogue, flexibility and local input into management and protection of their precious and diminishing water resources.

Research and investigations into the likely impacts of climate change have resulted in more detailed regional climate change vulnerability assessment and development of adaptation strategies intended to consider the longer-term sustainability of the region.

A long-term plan for water issues and in particular the need for holistic consideration of regional water resources and their importance to sustainable regional development is overdue for the GE region.

Community resources and wellbeing, the health of the region's water dependent ecosystems, sustainable management of water resources and the efficient and flexible management of these aspects all need to be encapsulated in the strategy. These aspects are linked and need careful and effective management to ensure long-term regional viability and sustainability at all levels.

Climate change presents uncertainty to future regional development expectations and for the region to have a strong stake in management of its own future, it must address water security in order to remain resilient.

The strategy will need to consult with a wide range of stakeholders across the GE region in order to develop a clear insight into what the challenges, gaps, possibilities and opportunities regarding current and future management of water resources.

The strategy will need to review some of the key influencing factors such as:

• Supply and demand review of all stakeholders and opportunities for collaboration (LGAs, community, industry and government)

- State and Federal legislation
- Historical regional water-use activities and consumption patterns
- Opportunities for regulatory reform and greater local governance
- A stepped approach to revision 2050 recommendations

Officer Comment:

This project will be developed in the second half of 2022. We are in the process of attracting partnerships from State and Federal government bodies to develop the strategy and assist in its implementation that will support the GE region to prepare for and adapt to climate change.

DWER estimate that it will cost anywhere from \$150,000 to \$300,000. GEDC have indicated that they can contribute up to \$100,000 (TBC).

This project will be submitted in the second round of WALGA funding to DWER, at the end of 2022. It is proposed that LGAs will need to contribute up to \$91,000 towards the work **(Attachment 4)**, depending on what other partnerships, funding sources can be sourced. This will also depend on what the final price will be once the procurement process is undertaken through an open tendering process.

LGA contributions have been considered on a sliding scale with the larger LGAs of COKB and Esperance contributing more based on their greater population sizes and impact on climate change.

It will be advocated that the Water Corporation and DWER should contribute significantly to the proposed costs of the work.

Consultation: GVROC, DPIRD, GGA, GEDC, WALGA, RDA, DWER, Water Corporation

RECOMMENDATION:

That the GVROC RCA Working Group:

- 1. Will work with the RCA Coordinator to further develop the Strategic Water Plan for funding submission to WALGA at the end of 2022.
- 2. Based on the proposed figures in Attachment 4, GVROC RCA, members will take the current figures back to their Councils seeking approval to fund up to these proposed amounts.
- 3. Agrees that the project continues to be developed and partnerships sourced by the RCA Coordinator for submission to the GVROC Council in July.

RESOLUTION: Moved: Seconded:	RESOLUTION:	Moved:	Seconded:
------------------------------	--------------------	--------	-----------

After a presentation from Water Corporation, DWER and DPIRD, it was decided to lay this item on the table until further work on this project is undertaken to achieve a greater focus on activities that can deliver transformational infrastructure outcomes from the region.

DWER Manager of Supply Planning, Dan Ferguson said similar strategic plans had been finished in other parts of the state with no success in triggering infrastructure progress, so the Working Group needs to be clear on its objectives, so it doesn't lose focus. More effective action had been achieved when the focus was at a smaller scale – this was particularly important given the size and variability of land use in the GE region (agriculture, mining, community, etc).

ACTION: RCA Coordinator to re-engage with each member and key stakeholders to look at a more integrated planning process for water supply and where this Alliance needs to be placed to ensure water security for all nine LGA members.

4.2 GVROC RCA Projects for Submission to WALGA on May 10

Reporting Officer: Niki Curtis, GVROC Regional Climate Alliance Coordinator

Date: March 2022

Attachments:

- Carbon Emissions Audit Application (Attachment 5)
- Renewable Energy Audit Application (Attachment 6)
- Ironbark Sustainability Proposal (Attachment 7)

Background:

Developing projects for application to the various current and future funding opportunities is a key part of this two-year RCA pilot program. WALGA and DWER have released the guidelines for funding projects for Round one, of which \$100,000 is available PA for each of the two successful RCA pilot program regions (South Coast and Goldfields Esperance) for the RCA's to apply for in a competitive tendering process.

Guidelines state that the project grants are designed to: foster action and collaboration between Local Government, communities, and businesses, to deliver projects that reduce greenhouse gas emissions, reduce climate change risks and build resilience to climate change.

The guidelines state that to be successful, the projects need to be a) typically beyond the reach of individual LGA's and b) support capacity building and knowledge sharing between LGA's in the Alliance.

To be eligible for funding, project proposals must meet the following eligibility criteria:

- a) focus on facilitating emissions reduction, enhanced climate resilience or associated capacity building for Local Governments and/or communities in the Alliance
- b) projects should benefit multiple Local Governments in the Alliance.
- c) Project proposals must ensure that the timeline and duration of the proposed project(s) aligns with the timelines of the RCA Program (May 2023).

The working group in March agreed on the list of projects to work on, and agreed that the order of importance and timelines will change as more information comes to hand on what funding opportunities, partnerships and programs are available. This list was endorsed at the April GVROC Council meeting.

Officer Comment:

WALGA and DWER have stated they are comfortable with all of the projects listed. The budgets and timelines for the projects are outlined in the proposals and attachments.

Consultation: GEDC, DWER, WALGA, RDA, etc

RECOMMENDATION:

That the GVROC RCA Working Group:

 Agrees that the final project applications and budgets for the two draft projects – Carbon Emissions Baseline Study and Renewable Energy Audit – will incorporate recommendations made by the Working Group and be emailed to members up to 7 days prior to May 10 for final approval/comment. A correct procurement process for engaging consultants will be adhered to and the normal LGA tendering process for each project will be undertaken.

11.3.1 SHIRE OF LAVERTON AND GOLD ROAD RESOURCES – ROAD MAINTENANCE MEMORANDUM OF UNDERSTANDING MT FLEMING ROAD

REPORT TO WHICH MEETING/COMMITTEE	Ordinary Meeting of the Council, 19 May 2022	
DISCLOSURE OF INTEREST	The author has no financial interest in the matter presented to the Council	
OWNER/APPLICANT	Not applicable	
AUTHOR	Peter Naylor, Chief Executive Officer	
RESPONSIBLE OFFICER	Peter Naylor, Chief Executive Officer	
PREVIOUS MEETING REFERENCE IF APPLICABLE	Not Applicable	

MATTER FOR CONSIDERATION BY THE COUNCIL

For Council to consider endorsing a formal Memorandum of Understanding with Gold Road Resources for ongoing maintenance on Mt Fleming Road.

ATTACHMENTS

OMC190522.11.3.1.A Memorandum of Understanding

BACKGROUND

The preparation of the MoU has been ongoing since an on-site meeting at Gold Road Resources Yamarna Camp on Monday 9 August 2021, when the Chief Executive Officer and Manager Works and Services met with Gold Road representatives.

Mt Fleming Road is a public access road leading south from the White Cliffs Road providing a direct link for the Gold Road operations between the Yamarna Camp and their Toppin Hill Camp at the Mt Fleming operations.

There is very little public traffic that utilises the road and as a consequence it does not have a high priority for maintenance from a Shire perspective.

Gold Road however is a frequent user of the Road for its (or its related bodies corporate) exploration and mining activities in the area, and the ongoing maintenance of the road is important for (among other things):

- (a) the ongoing health and safety of Gold Road's employees, contractors and other users of the Road; and
- (b) minimising the wear and tear on vehicles using, and equipment transported on, the Road.

STATUTORY IMPLICATIONS Local Government Act 1995

Section 2.7(2) – Provides that Council is to oversee the allocation of local government finances and resources and to determine the local government policies.

Section 3.1 – Provides that the general function of the local government is to provide for the good government of persons in its district.

Section 3.52- Public access to be maintained on thoroughfares.

Land Administration Act 1997

Clause 55(2) - The local government within the district of which a road is situated has the care, control and management of the road.

STRATEGIC PLAN IMPLICATIONS

The recommendation of this report meets the Economic, Environment and Leadership Objectives of the Shire of Laverton Plan for the Future: Strategic Community Plan and Corporate Business Plan 2020-2030.

POLICY IMPLICATIONS

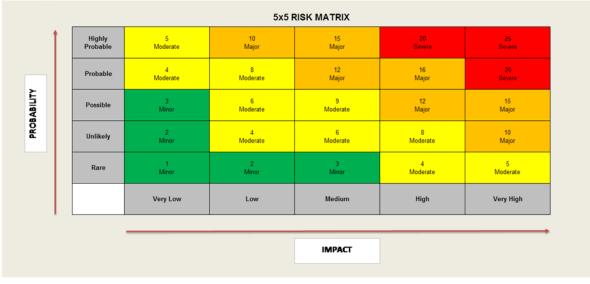

Council has no policies in respect to this matter, however Council has recently, at the Ordinary meeting held on Thursday 21 April 2022, resolved to form a Focus Group for this type of matter..

FINANCIAL IMPLICATIONS

The recommendation of this report has no financial implications for Council.

RISK MANAGEMENT

The risk is considered low, and it certainly meets the requirements of the community Strategic Plan.

CONSULTATION

Gold Road Resources (specifically Mr Mick McLoughlin, Field Operations Superintendent) McLeods Barristers and Solicitors

COMMENT

The legal teams on behalf of Gold Road Resources and the Shire have been working on the Memorandum of Understanding (Agreement) for maintenance to be carried out on Mt Fleming Road since the initial meeting on 9 August 2021.

Both parties now agree with the content of the MoU and are happy to proceed with executing the document.

With reference to the Focus Group that Council resolved to form at the April meeting, it must be taken into consideration that this particular process has been ongoing for some time and should not be delayed through another form of collaboration.

It is important to note that the MoU is not an open-ended agreement and has an expiry date of 1 March 2025.

The reason for the expiry date is that whilst the Anne Beadell, White Cliffs, and associated roads, do not currently carry a lot of traffic it is anticipated that this may change as the Great Central Road upgrades continue which may then lead to off road enthusiasts avoiding the Central Road and utilising other less maintained roads such as those mentioned.

VOTING REQUIREMENTS

Simple majority decision of Council required.

RESOLUTION

COUNCIL DECISION/PROCEDURAL MOTION

MOVED: Cr R Wedge SECONDED: Cr J Carmody

That Council:

- 1. Endorses the Memorandum of Understanding (Road Maintenance Agreement) between the Shire of Laverton and Gold Road Resources for the maintenance of Mt Fleming Road, as per attachment 11.3.1.A, and noting expiry date of 1 March 2025; and
- 2. Authorises the Chief Executive Officer to duly execute the document on behalf of the Shire of Laverton.

BACKGROUND

The applicant seeks to participate in the WA Container Deposit Scheme and provide a deposit point for empty beverage containers.

Under the WA Government 'Containers for Change' scheme, the public can deposit their empty containers at a deposit point and receive 10 cents for every eligible container returned.

Customers can opt for a full refund or can donate the refund money from their containers to the Sports Club directly. There are opportunities for the Club to obtain donations from entities such as mining companies through the deposit scheme.

There are existing sports club buildings and recreation infrastructure that are well established on the property. The area proposed to be used will be to the rear of the existing buildings – refer aerial below.

STATUTORY IMPLICATIONS

Local Government Act 1995

- Section 2.7(2) Provides that Council is to oversee the allocation of local government finances and resources and to determine the local government policies.
- Section 3.1 Provides that the general function of the local government is to provide for the good government of persons in its district.

Shire of Laverton Town Planning Scheme No 2 ('the Scheme')

The land is a Local Scheme Reserve for 'recreation and open space'. Council has broad discretion to consider any land use within a local scheme reserve.

The proposed deposit service is ancillary to the existing sports club and recreation uses on the same lot.

STRATEGIC PLAN IMPLICATIONS

The recommendation of this report meets the Social, Environment, and Leadership Objectives of the Shire of Laverton Plan for the Future: Strategic Community Plan and Corporate Business Plan 2020-2030.

POLICY IMPLICATIONS

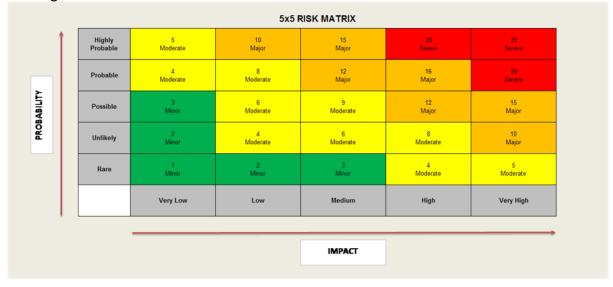

Council has no policies in respect to this matter.

FINANCIAL IMPLICATIONS

There are minor financial implications, the Shire pays consultancy fees to Liz Bushby (Town Planning Innovations) for planning advice.

RISK MANAGEMENT

The risk is considered low, and it certainly meets the requirements of the community Strategic Plan.

CONSULTATION

Laverton Sports Club Liz Bushby, Town Planning Innovations

COMMENT

An area to the rear of the existing sports club building will be available for the deposit of containers by the public on certain days. A volunteer will be available on site to identify the bags of containers and record the participant names.

The rear yard is fully fenced, gated and secure. Further external security cameras may be installed for increased surveillance.

The public can leave the containers on site where they will be organised, counted and sorted by volunteers. The sorting will most likely occur on Saturdays.

It is proposed to set up removable marques or gazebos for shade to the rear of the sports club. Trestle tables will be set up under the shade structures for volunteers to sort and record the containers.

Once sorted, the containers will be stored in a cage or cages. The full cages will be picked up fortnightly by Cleanaway. Cleanaway also leave an empty cage or cages ready to be refilled.

It is understood that Cleanaway service both Laverton and Leonora in the same run.

VOTING REQUIREMENTS

Simple majority decision of Council required.

Refund Point Operators | Application Form

Response Requirement	Response
Staffing	
How many people will you employ at this Refund Point?	No employees at this stage. We can take on the Containers for Change program with the help of all our volunteers. We will work on a roster so that everyone involved can have a break for holidays and other commitments. An invitation will go out as well to other club members to help out, but at this stage we have sufficient numbers to help with the count and paperwork (we have 8 members committed already).
How many of these people will be either apprentices or trainees?	None at this stage
Nominate your target % of employees that are people experiencing vulnerability or disadvantage, such as those with disabilities, or who are long term unemployed.	N/A - 0%
Nominate your target % of employees that are Aboriginal and Torres Strait Islander people?	None at this stage
Describe activities completed to date in support of the fulfilment of the above commitments (including interactions with employment agencies and any letters of support received). (Maximum 200 words)	No activities completed regarding employment however, a commitment from club members including committee members to undertake the counting and oversee the program. Several already have considerable experience supporting Pakaanu AC when they weren't able to run the recycling.
Describe your approach to recruitment and staffing in order to establish your site(s), including approach to the fulfilment of the above commitments? (Maximum 200 words)	We have also approached station managers from Laverton Downs who are willing to help volunteer their time and the time of their teenage children to keep the recycling in the community going.

4 Operating Model

Response Requirement	Response
Customer service interface Describe how you intend to configure the proposed Refund Points to deliver high levels of customer service, including approach to counting containers, paying Refund Amounts, interacting with Customers and resolving disputes. (Maximum 500 words)	The entrance will have signage (that we still need to order) and be set up so people can see how to drive into the counting and drop off area. Most local people are very familiar with the Sports Club, the committee and any existing WARRRL Laverton customers know me and associate me with the recycling program. We would advertise on local Facebook. We will email local businesses and mining companies in the local area who would have high levels of product and ask them to bring in their product on an off day to the public so that counting can start and continue with the days provided if we are not able to finish in the given time frame. If there are disputes that we cannot dissolve on the day, then we would refer them to the complaint line for WARRRL if they chose to go that way.
Handling of collected containers Describe how you will sort Containers into the provided Collection Infrastructure. (e.g. utilise counting tables and sort into smaller bins on the floor before decanting into Collection Infrastructure in the warehouse) (Maximum 500 words)	Containers to be received at a counting table, sorted, and counted into various sized tubs then be tipped (or directly counted into) into the Collection Infrastructure provided by WARRRL/Cleanaway ready for collection. Recoding in the POS system is where possible to occur directly after counting.
Aggregation of Containers to your Aggregation Point(s)Describe how the Containers collected at your proposed Refund Point will be aggregated to your Aggregation Point(s) and counted, sorted and recorded on the POS system.(e.g. What vehicles and bins or cages do you intend to use to transport containers back to the Aggregation Point? What capacity do you have at the Aggregation Point to sort, counting and process the containers (to the extent this has not been done at the Drop-Off, RVM or Mobile Refund Point?)(Maximum 500 words)	We have often found it works best to separate and count products that have already been sorted, directly into the cages provided by WARRRL. There is no need to then transport the cages to a separate Aggregation Point as the cages can be collected directly from our site by Cleanaway.

5 Organisational Capability

Response Requirement	Response
Relevant experience Provide details of your organisation's relevant experience in running an operation of a similar scale (in terms of revenue turnover and staff count and/or complexity). Note that relevant experience is not limited to waste management and collection and may include customer service, local knowledge and community engagement. (Maximum 500 words)	Although the Sports Club have had no experience with WARRRL operations, we have plenty of experience with customer service, preparing and servicing activities each week, and for events and large crowds with contractors (where needed) and volunteers. Myself as the contact person for this application have plenty of experience running the Containers for Change programs for 5 months when I stepped in to help Pakaanu when they did not have a Coordinator. I have local experience liaising with WARRRL, organizing counters, collection of cages and count sheets to be emailed off for processing of refund point and also helped out customers needing a scheme ID. My husband also assisted, and we are both on the Sports Club committee. We have the knowledge to assist the Sports Club members to run the service smoothly.
Financial capacity Please describe your financial capacity to meet the working capital requirements of a Refund Point, including initial value of deposit refunds (prior to reimbursement by the Coordinator in accordance with payment terms), other operating costs, and necessary investment in plant and equipment? In your response, please note any other existing obligations your organisation has, and how this will be managed to ensure no impact on the delivery of Services. (Maximum 200 words)	The Sports Club has operated for more than 25 years and earns income from bar sales at weekly activities and fundraising at other events. We have committee members with the financial expertise to manage our funds and have successfully received and acquitted large local and state government grants (\$200,000 +) in the past. As most of the infrastructure is already in place, further equipment and set up is minimal. For any items of plant and equipment needed, we will be looking to our local mining companies for support; they have previously generously helped already with other equipment for the Sports Club.
What is the source of funds to financially support the establishment of the Refund Point(s)? <i>(e.g. cash reserves, loans)</i> (Maximum 200 words)	The source of funds to establish the Refund Point will be the takings for sales made from the Club activities, fundraising and / or donations from Local mining companies, as well as the Containers for Change income. The Sports Club has reasonable cash reserves for our small organisation, no loans and as the premises is owned outright and has no staff, so has limited financial commitments.

6 **Operational Readiness**

This Section 6 is not required for Applicants seeking to be Major Operators.

Response Requirement	Response
Equipment	
List the key pieces of equipment you intend to use at your proposed Refund Point(s) and whether this will be new or existing equipment? (Maximum 500 words)	The Club already has tables to place bulka bags/bags on for counting at a good height for safety and handling, plus 9 smaller tubs for sorting at the tables if needed. WE will need PPE Gear - Gloves, face masks, a marquee for shade and a bar fridge to store water for counters/volunteers. These would be new equipment.
For new equipment, what is the planned approach to purchasing this equipment and what consideration has been taken for lead times? (Maximum 200 words)	For new equipment, some will be donated by mining companies including Sports Club board member Lynas Rare Earths and other things will be purchased by the club.
For new equipment, will this equipment be purchased from local manufacturers and/or provide community benefit? If so, please provide details. (Maximum 200 words)	As Laverton is a very small remote town there is no opportunity to buy from local manufacturers and very limited opportunity to purchase locally. We will likely purchase most items from the regional centre of Kalgoorlie-Boulder.
Mobilisation Resource How many staff members will be available or dedicated to managing mobilisation activities for the Refund Point(s) proposed? Please note any other existing obligations and work commitments of the staff members which may impact on the delivery of the mobilisation activities. (Maximum 200 words)	1 Person/volunteer - part time (other people will also be trained to be able to do this admin and management work in the future. There are no existing obligations which will inhibit the ability to do the work.
Staff training What training will be provided to staff to ensure high levels of customer service and safety at the Refund Point(s)? (Maximum 200 words)	There will be an induction and training session an hour before the first count, to ensure everyone knows the safety procedures/processes. We will repeat the induction and training as required when new volunteers come to assist.

7 Community Engagement

Response Requirement	Response
Community Engagement Describe how you will engage with not-for- profits, charities, schools and other community groups as part of your day-to-day operations in order to provide opportunities for these organisations and members of the public to participate in the Scheme. (Maximum 500 words)	Luckily for Laverton, communications with groups, organisations and community have already been well established. We have already been working with the local hotel, mining camps, the school and other local businesses, and organisations. I will be emailing mining companies to work out a plan for delivery or pick up of bulk products to bring to the club, which will then require most of the volunteers to help count on Saturdays with a BBQ for volunteers to follow.
