**BUILDING OUR FUTURE**

## Outback Way Great Central Road Progressive Sealing Project Western Australia

Case study

Building Our Future 2021

### Laurinda Hill, Manager of Laverton's Great Beyond Visitor Centre

Thanks to the Australian Government's \$110 billion 10 year Building Our Future investment in transport infrastructure, it is going to be even easier for tourists to travel from Laverton along what is nicknamed Australia's longest shortcut to Uluru, Alice Springs and across to Winton in outback Queensland.

The Government has invested \$37.2 million to progressively seal approximately 87 kilometres of the Great Central Road, which forms part of the Outback Way between Laverton and Northern Territory border.

Laurinda Hill, Manager of Laverton's Great Beyond Visitor Centre, home to the Explorers Hall of Fame, says the town is booming as contractors working on this project fill accommodation and spend their hard-earned money in the local supermarkets, cafes and other small businesses.

"A lot of the guys working on the project come into town to buy coffee and head to the local supermarket to grab their supplies—it's already had a major impact on the town's economy," she says.

The visitor's centre has also seen a jump in enquiries from caravanners and campers keen to explore the area.

"Laverton is a central hub for routes to so many parts of the state and further afield. Northeast to Uluru, east to Coober Pedy, north to Lake Carnegie, southwest to Kalgoorlie; and there's access to a lot of four-wheel-drive tracks, cattle stations and old tracks.

"There's been a huge jump in the number of visitors coming from Perth and the Goldfields," Laurinda says.

Johanna McGuire, who manages the local Community Resource Centre for the Shire of Laverton also says she is excited by the number of young locals who have also secured work on the project.

The Outback Way Great Central Road Progressive Sealing Project is just one of over 600 projects being delivered across the country as part of the Australian Government's \$110 billion 10 year Building Our Future infrastructure plan. For more information about these projects, visit [www.buildingourfuture.gov.au](http://www.buildingourfuture.gov.au)

### Quick facts:

- Total cost: \$46.5 million
- Australian Government investment: \$37.2 million (part of the \$110 billion 10 year Building Our Future investment in transport infrastructure)
- Jobs: supporting 200 jobs
- Completion: mid-2022, weather permitting

It is great to see so many students attending school and in uniform. Students are working hard and participating well. Reports will be issued soon and we will host a parent interview event early in Term 3, so parents can discuss student progress with teachers.

### **Term 3 Staffing**

Next term there will be a new teacher, Ms Susie Hall, at Cosmo Newberry. I would like to say farewell to Kevin and Dayvne Smith for their hard work and dedication working at Cosmo Newberry for four years. They will be returning to New Zealand and we wish them all the best. We will also be saying farewell to Ms Kirsty Moncrieff and Ms Imogen Drynan. We wish them well in the future. At the start of Term 3 we will introduce some new teachers.

### **Nightfields**

The new shade structure over the sports courts is proving to be a big hit and has made the courts much more useful. The police Nightfields program is on from 3-4pm every Tuesday and we encourage all students to attend. The police are planning to enter a basketball competition through Nightfields next term. There is a hot cook up for everyone at the end of Nightfields and parents and carers are invited to attend.

### **P&C**

if you are interested in being the P&C President then please contact the school. There are some great fundraising opportunities coming up.

I hope our families are proud of the children you are raising. Laver ton students really are amazing and visitors to the school say this. They are polite, engaged in learning and get along well. It really is wonderful to work at Laver ton School with such awesome students.

**Students return to school on Monday 19 July.** Wishing everyone a safe and relaxing holiday break and we look forward to Term 3 and athletics season.

# Room 8

On the 19th of May, over one million kids read a story at the same time for National Simultaneous Story Time.

The story was about a young woman who ventured into space searching for other life forms, but she soon realised earth was the place to be.

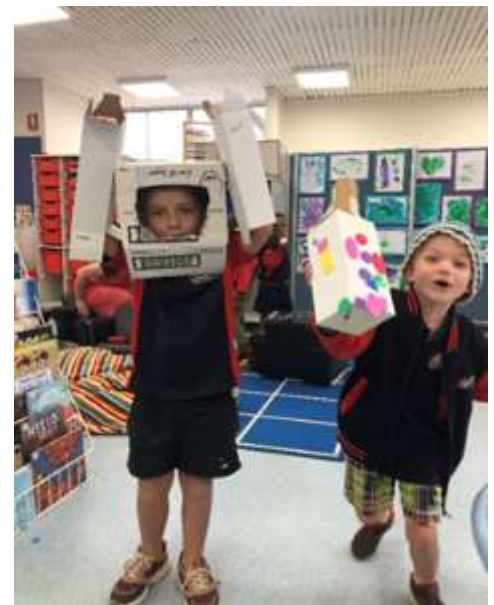

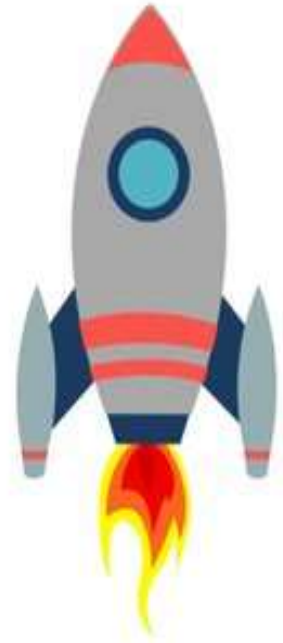

We wondered what it would be like travelling into outer space and decided to become astronauts for the day.

First, we planned what our rocket ships would look like.

Then, we gathered the materials we would need to build our rocket ships.

Last, we decorated our rocket ships and made them look SPECTACULAR.

Some of us even made astronaut suits to really achieve LIFT OFF!
