Shire News

The Shire of Laverton would like to raise the following items that may be of interest to community members. For further information, please visit the Shire website at www.laverton.wa.gov.au or contact the CEO during office hours if the information you seek is not on the website.

2023-2024 Holiday Season

As we are now coming into the 2023-2024 holiday season, on behalf of the Shire Council and Staff I would like to take this opportunity to wish all of our community members and their extended families the very best for Christmas and New Year. We hope you have a safe and happy December and January and enjoy your break if you are having one.

Christmas Closure

The Holiday Closure Information for the Administration Office, Community Resource Centre, Great Beyond Visitors Centre and Shire Works Depot have been included in this months addition of the Sturt Pea.

Election of Shire President and Deputy Shire President

The election for Shire President and Deputy Shire President were held at its Ordinary Meeting of Council 16th November 2023. Cr Patrick Hill was re-elected as Shire President and Cr Shaneane Weldon was re-elected as Deputy Shire President, for 2 year terms ending in 2025.

Next Ordinary Meeting of Council

The next Ordinary Meeting of Council will be held on Thursday 7th December 2023 at 5:00pm in the Council Chambers of the Shire Administration Building. These meetings are open to all members of the public who wish to attend. Residents are reminded that they can view the forthcoming Agenda and past Minutes of meetings on the Shire website.

Ordinary Meeting of Council Dates for 2024

No January Meeting	Thu. 16 May 2024	Thu. 19 September 2024
Thu. 15 February 2024	Thu. 20 June 2024	Thu. 17 October 2024
Thu. 21 March 2024	Thu. 18 July 2024	Thu. 21 November 2024
Thu. 18 April 2024	Thu. 15 August 2024	Thu. 5 December 2024

Council road widening, sealing, works and developments

Cox Street

Sturt Pea Drive

Laverton Airport Road

Section of Merolia Road

Merolia Road/Racecourse Road

Laverton Racecourse Road

Laverton Rubbish Tip Road

Opening of Duketon Street

War Memorial

Curbing has been replaced at the War Memorial. Further plans have been established and will commence in 2024. The War Memorial will become the centre point of town.

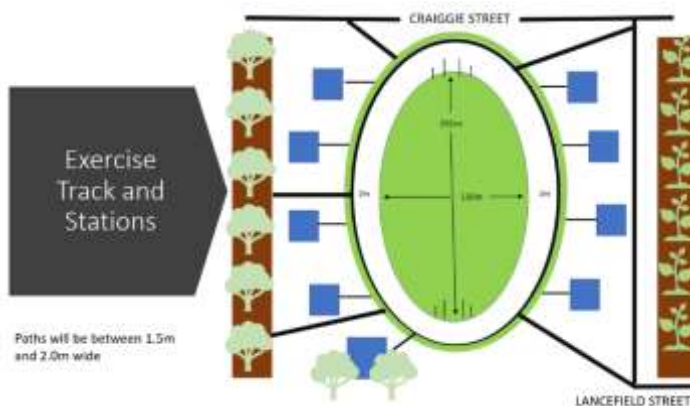

Town Oval

Trees have been planted along the fence lines of the Town Oval.

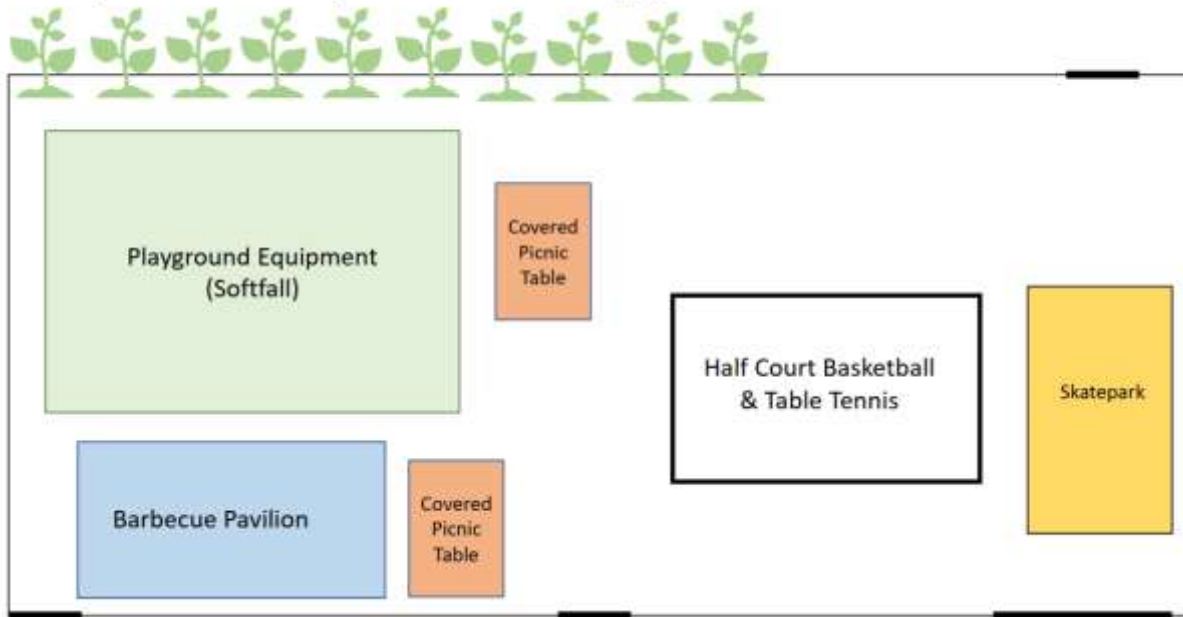

Below is the plan for further developments in 2024:

Playground

Below is the plan for the Playground in 2024 including additional equipment, shade sails and soft fall. The skate park will be moved from Leahy Park to the playground:

Proposed Layout of Playground

Old Youth Centre

This will be a two-stage removal, stage 1, the fencing will be removed and a general clean-up of the site.

Community Garden

The moving of the skate park to the oval will allow the use of this area for a community garden. If there are any interested persons, please contact the Administration Office to register your interest.

The Council intends to continue greening the town as much as possible. Trees will be planted along Beria Road when it cools down. Bollards will also be installed to restrict the traffic movement across areas conflicting pedestrians with.

Laverton Hospital

Council is frustrated with the lack of movement with the Laverton Hospital. Council is determined to clarify with the Premier and Minister for Health as to when they will commence the hospital build.

Roads Program for 2024

Council is seeking funding for the Laverton Bypass Road linking into the Mt Weld Road. Tenders for the Old Laverton Road, Bandy Road and flood damage on the Great Central Road will be put out to open tender. For all interested parties, please keep watch for the Tender advertisements.

Great Central Road

Due to inactivity by Main Roads and the impact of native title, there has been no construction in nearly 3 years and Council will again be taking the matter up with the Premier and Minister for Roads. Northern Territory and Queensland are powering ahead and in Western Australia, we are falling behind.

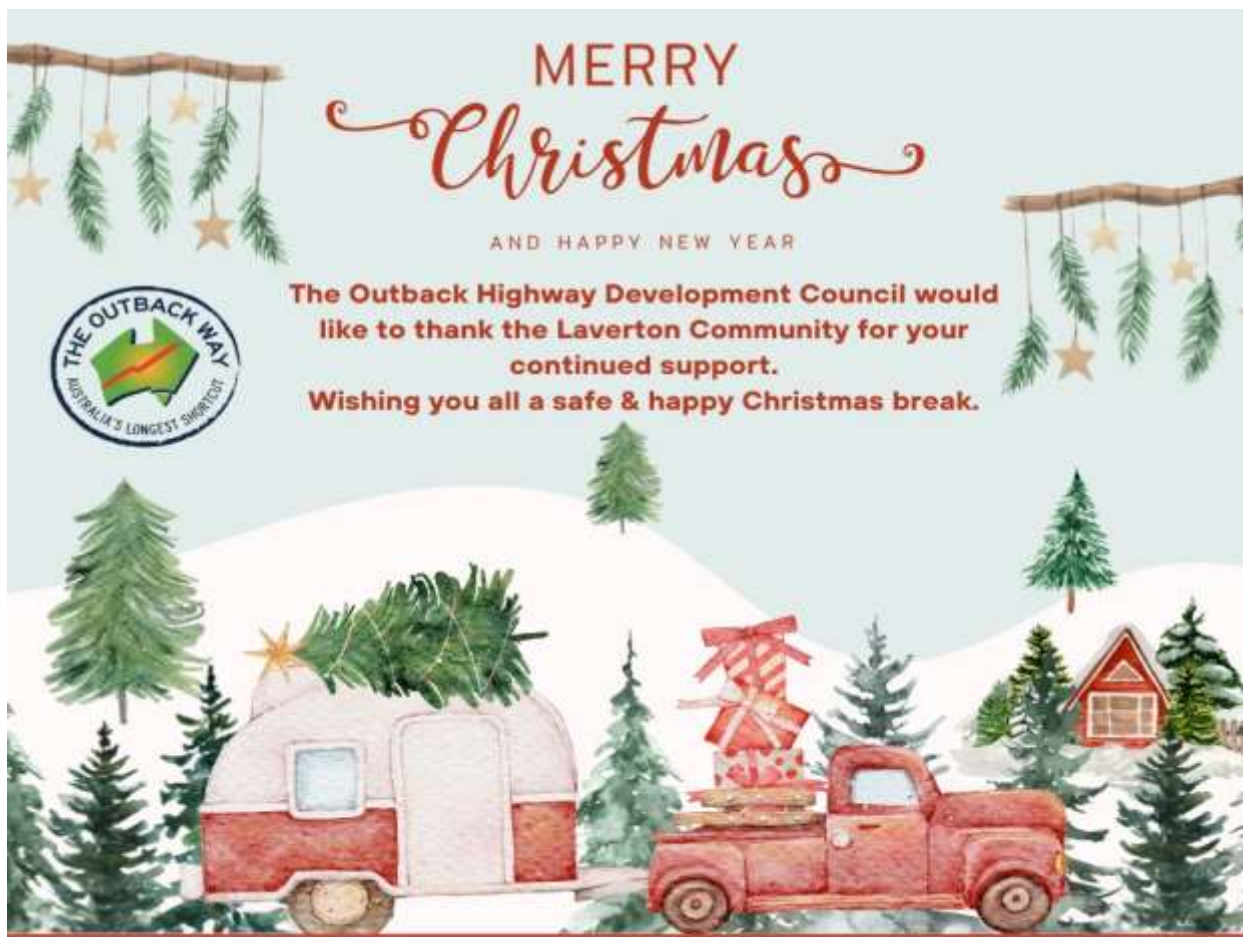

Council will commence its 2024/2025 budget and appreciates input from the community to what is required within the town. The Council has the Community Strategic Plan which guides us; however, we would appreciate constructive comments. Please contact Tamara Hill with your suggestions.

In closing, and again on behalf of Councillors & Staff, we wish you a Merry Christmas and a prosperous New Year.

Phil Marshall
Chief Executive Officer

Outback highway development council

THE LAVERTON CRC
IS

CLOSED

For the Christmas holidays!

CLOSED

4:00PM Friday 15th December 2023

REOPENING

9:00AM Monday 8th January 2024

On behalf of the Staff at the Laverton CRC we want to wish everyone a Merry Christmas and a Happy New Year! We can't wait to see you all in 2024!

CRC NEWS

Welcome to the December Sturt Pea!

And just like that its DECEMBER! On behalf of the Laverton Community Resource Centre, we want to thank you! For supporting us this year whether it be using our services, visiting the CRC or attending our events. We also want to thank all of our supporters for all of the assistance throughout the year- we wouldn't be able to do the things we do for community without you!

The Laverton CRC in conjunction with Water Corp are once again offering FREE shower head swaps! There are two different types of shower heads to choose from - please visit the CRC with your old shower head and find out more info!

The Laverton CRC will be closed from 4:00pm, Friday 15th of December and will re-open on Monday 8th of January 2024.

We wish to advise that if you have any important things you need sorted out before the closure period - please visit the CRC in the mornings, as our hours will be limited from the Wednesday 6th of December till Friday 15th of December! We apologise for any inconvenience this may cause.

We want to wish everyone a Merry Christmas and a safe and Happy New Year, we can't wait to see you all back next year, we have some exciting events planned for you all!

Merry Christmas and Happy New Year!!

Enjoy the read,
Jezaire Kelly
Co-Ordinator, Laverton Community Resource Centre

In the Old Court House which borders the Town Oval, in Craiggie Street
Laverton.

The Catholic Parish of Laverton is linked to the Parish of Our Lady of Mt Carmel and there may be times, due to sickness or road conditions where I may not be able to celebrate the Eucharist so I ask that you please **contact Fr Robert O'Bryan on 0457980852; Email: olmchurch@westnet.com.au**

Kindest Regards

(Fr.) *Robert O'Bryan*

FREE Showerhead Swap

Showerhead Swap

Terms and conditions

It's important that you read and understand the terms and conditions before removing your showerhead/(s).

By participating in the Showerhead Swap program, you have accepted these terms and conditions.

To be eligible for free replacement showerhead(s) under the Showerhead Swap program:

3. You must live in one of the towns as identified on the Water Corporation's website – Regional Showerhead Swap program webpage; and
4. If you are a tenant, you and the landlord must agree to participate in the Showerhead Swap program, which includes the replacement of the old showerhead(s) with showerhead(s) provided under the Showerhead Swap program.

The process:

5. You must take your old showerhead(s) and a copy of a recent bill from Water Corporation in your name or a recent waterwise letter, if you have received one, to an exchange point identified on Water Corporation's website at watercorporation.com.au/showerheadswap ("Exchange Point") to exchange it for a new replacement showerhead(s), only while supplies last.
6. A maximum of two old showerheads can be swapped for two replacement showerheads for each household, only while supplies last.
7. At the point in time that your old showerhead is accepted by the Exchange Point, the old showerhead becomes the property of the Water Corporation and cannot be returned to you.
8. You are responsible for:
9. Removal of the old showerhead(s), including ensuring the removal of the old showerhead is compatible with existing systems, the wall fitting(s) and plumbing. If you are in any doubt or require assistance, we recommend that you ask a licensed Plumber for advice or help.
10. Installation of the replacement showerhead(s), including ensuring the installation is compatible with existing systems, the wall fitting(s) and plumbing. If you need assistance with installing the showerhead(s), we recommend you contact a licensed Plumber. Find a Waterwise Specialist near you.
11. The condition, operation, maintenance, alteration, replacement, and/or removal of the replacement showerhead.

Water Corporation is not responsible for:

12. Removal of the old showerhead(s) or the installation of the replacement showerhead(s) or any costs, damage, loss or risk caused as a result.
13. The installation, maintenance, operation, alteration or replacement of the replacement showerhead; and/or
14. Any associated costs, loss or damage, incurred by participating in the Showerhead Swap program.

Showerhead Swap Terms and conditions

Additional terms and conditions:

15. The Water Corporation provides no warranty regarding the condition, capability, performance or suitability of the replacement showerhead for whatever purpose you intend to use the new showerhead(s).
16. The Exchange Point will act as a distribution point only for the showerhead/(s) on behalf of the Water Corporation. The Exchange Point bears no responsibility for any loss, damage, or claim arising out of the Showerhead Swap program, including any loss, damage or claims associated with the removal, installation, plumbing, and/ or manufacturer warranties.
17. For avoidance of doubt, Water Corporation is not the manufacturer of the showerheads provided under the Showerhead Swap program and does not provide any warranty regarding the performance of the showerhead(s).
18. To obtain your warranty and/or if you experience any product faults with your new showerhead(s), you will contact the relevant, manufacturer, directly.
19. If you have the Posh Solus Hi Rise shower or Mk3 hand-shower pictured below, you will need to provide details to the Exchange Point you collected your showerhead/s from. The Exchange Point will then email Waterwise.Towns@watercorporation.com.au with fault issues and supporting images. Water Corporation will contact Reece Plumbing Centre. Reece Myaree can be contacted on (08) 9263 1510 or by visiting their website at www.reece.com.au. Please note the warranty for these showerhead models will be void if the showerhead is tampered with.

20. If you have the Bermuda Flexispray Hi Rise pictured below, you will contact the manufacturer, Methven, on 1300 638 483 or by visiting their website at www.methven.com.

21. The Showerhead Swap program ends 31 May 2024, but limited stock may still be available after this time. Please contact your local Exchange Point to find out if there is any stock remaining after 31 May 2024. Any remaining stock will also be subject to these terms and conditions.

Suitability of Showerheads:

22. The replacement showerheads provided under the Showerhead Swap program are water efficient.
23. The replacement showerheads are not suitable for low pressure, gravity fed (in the roof), and some instantaneous or continuous supply hot water systems. It is your responsibility to ensure the compatibility of your existing hot water system with the replacement showerhead(s). If in doubt, we recommend contacting a licensed Plumber for advice or help.

Granny Smith Mine Site

CYANIDE MANAGEMENT AT GRANNY SMITH GOLD MINE.

In accordance with the International Cyanide Management Code (ICMC)

What is Cyanide?

A chemical compound consisting of carbon and nitrogen. Forms of cyanide; sodium cyanide, hydrogen cyanide, potassium cyanide etc. Cyanide is delivered in either solid or liquid forms. At Granny Smith it is delivered in liquid form, at a 28-30% concentration.

Why do we use Cyanide?

To leach (dissolve) gold from the ore so it then can be refined.

What are the risks with cyanide? Some of the risks associated with cyanide are:

- Cardiac Arrest
- Cyanide Poisoning
- Environmental Incidents
- Seeping into waterways
- Flora & fauna deaths

What is the Cyanide Code?

It is a voluntary industry program to assist the gold mining industry to improve its management of cyanide.

The code intends to:

- Reduce the exposure of workers and communities to harmful concentrations of cyanide.
- Limit releases of cyanide to the environment.
- Enhance response actions in the event of an exposure release.

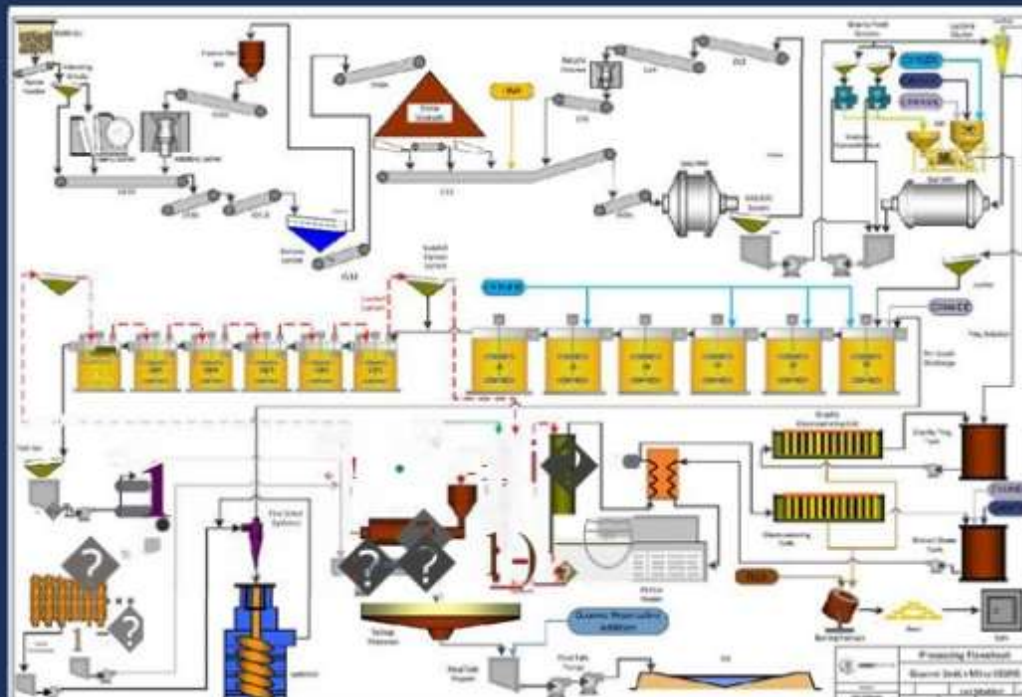

Principles of the Cyanide Code:

Granny Smith is committed to manage cyanide in a responsible manner to ensure the safety of its employees, communities and to the environment as per the International Cyanide Management Code.

How does GSM manage cyanide?

GSM manages cyanide by continuous monitoring:

- Daily wildlife monitoring
- Procedures
- Maintaining set points for both pH and cyanide targets
- Tailings and process water pond dam inspections
- Plant inspections
- Pumps and pipeline inspections

Granny Smith Mine Processing Mill Circuit

How does the GSM Mill operate?

Crushing and Grinding:

- In these circuits the ore from the Granny Smith (Wallaby Underground) mine is reduced in size from large boulder to a very fine silt
- This step is required so the individual gold particles can be exposed to the cyanide containing solutions in the leaching and adsorption circuit
- Lime is dosed onto a conveyor and fed into the SAG Mill to maintain the pH above 9.8 to prevent the release of cyanide containing gas in the Plant

Leaching & Adsorption

- In this stage the product from the crushing and grinding circuit is mixed with a solution containing cyanide to form a watery mud called slurry.
- Oxygen is injected into this slurry where it works with cyanide to dissolve the gold from the solid particles into the solution.
- Carbon is added to this slurry where it absorbs the gold in the solution.
- The gold rich carbon is physically screened out from the slurry to go to the refining stage.
- The remaining solids and solution containing low levels of cyanide are then pumped to the tails dam for final disposal.

Refinery:

- The gold rich carbon is washed with a solution containing cyanide and caustic which removes the gold from the carbon.
- The carbon goes back to the leach and adsorption stage to pick up a fresh load of gold.
- The left over solution containing cyanide and gold goes to the refining stage where a combination of electrowinning and smelting is used.
- This converts the gold in solution to solid bars containing about 80% gold.
- Any waste products from this step including those that contain cyanide are then recycled back to the leach and adsorption stage.

Tailing Retreatment (TR), Thickener and Storage Facility:

- Tailings is a by product of gold processing.
- Tailings stream is deslimed to remove light particles before gravity separation to recover the heavy fraction of deslimed stream.
- The deslime cyclone overflow and spiral tails flow from the TR circuit to the tailings where the stream either is diverted to the final tails hopper or flows to the thickener and is flocculated and thickened.
- Final tailings slurry is pumped to the existing tailings storage facility (TSF).
- Spigots on the tailings ring line are used to control tailings deposition in each cell and water is recovered back to process water tank for reuse.
- To support a Life of Mine beyond 2030, Granny Smith has now completed the expansion and construction of a 4th TSF storage cell that is referred to as TSF4. Construction of TSF4 is complete and will be commissioned this year in 2023.
- Community consultation and advertisement of the proposed TSF4 will be undertaken as part of the WA government and Gold Fields Corporate governance, approvals and permitting processes.

- Granny Smith Community contact - GSM.Community@goldfields.com

8. On Christmas morning we unwrap our _____.
9. ___ to the world!

HOMEMADE *Gingerbread Cookies*

INGREDIENTS

3 cups all-purpose flour
3/4 cup dark brown sugar, packed
3/4 teaspoon baking soda
1 Tablespoon ground cinnamon
1 Tablespoon ground ginger
1/2 teaspoon ground cloves
1/2 teaspoon salt
12 Tablespoons butter, room temperature
3/4 cup molasses (dark molasses)
2 Tablespoons milk

For the frosting:

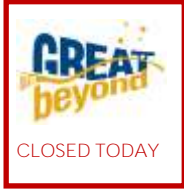

2 Tbs butter, room temperature
2 cups powdered sugar
2 Tablespoons milk

COOKING METHOD

1. Add flour, brown sugar, baking soda, cinnamon, ginger, cloves and salt to a mixing bowl and mix.
2. Add the butter and mix butter in until mixture forms a fine crumbly consistency
3. With a mixer running on low speed gradually add the molasses and milk and mix until combined.
4. Divide the dough in half, forming each into a ball. Wrap each in plastic wrap and refrigerate for 2 hours or overnight, or place in the freezer for about 20 minutes, until firm.
5. Preheat the oven to 350 degrees. Line 2 baking sheets with parchment paper.
6. Remove one dough sheet from the fridge/freezer and place on the counter. Roll out the dough (use a little flour on your rolling pin if needed), until it's about 1/8 inch thick. Cut gingerbread men and place them on prepared baking sheets.
7. Refrigerate the gingerbread men for 5 minutes (meanwhile you can roll out the other dough ball).
8. Bake the cookies until set in the centers and the dough barely retains and imprint when touched very gently with fingertip, 8 to 11 minutes (depending on the size of your cookie cutter). Do not overbake!!
9. Remove the cookies to a wire rack. Allow to cool to room temperature before frosting
